## Alfa Defense Industry Who we are?

**Alfa Defense Industry** was established in 2014. Since its establishment, it has successfully completed national and international engineering projects by using its high experience in engineering disciplines. Our aim is to provide high quality production in a short time and with optimized costs.

Our company has been continuing its services with its professionalism and experience since the day it was founded. Working in discipline in all projects, the **Alfa Defense Team** uses the latest technology and developments and provides defense industry services by engaging in joint R&D and activities with various organizations.

Our goal is to create high quality innovative products in the defense industry. In this context, our company has started the production process of bullets and cases within the scope of priority investment planning for 2020. Within the scope of future investment and R&D planning, efforts to design and produce products of different diameters and calibers continue.

9mm. 124 Grs.

## Full Metal Jacket Round Nose Bullets

### Product Description:

Full metal jacketed bullets are the best choice for training and target shooting applications. In addition, our products provide high efficiency and accuracy standards in all security and military operations.

### Technical Specifications:

Type	FMJ
Weight	8.00 g.
	124 grs.
Material of Jacket	CuZn 30

9mm. 115 Grs.

## Full Metal Jacket Round Nose Bullets

### Product Description:

Full metal jacketed bullets are the best choice for training and target shooting applications. In addition, our products provide high efficiency and accuracy standards in all security and military operations.

### Technical Specifications:

Type	FMJ
Weight	7.50 g.
	115 grs.
Material of Jacket	CuZn 30

9mm. 124 Grs.

## Copper Plated Round Nose Bullets

### Product Description:

Our process starts with a lead billet that is extruded into wire. The lead wire is then swaged into a core. The cores are copper plated, then restruck once more. Though not common in the industry, this restrike process produces a bullet that is more uniform, with a more precise diameter and a smoother finish for a better shooting and better looking bullet

### Technical Specifications:

Type	Plated
Weight	8.00 g.
	124 grs.
Material of Jacket	CuZn 30

9mm. 115 Grs.

## Copper Plated Round Nose Bullets

### Product Description:

## 9mm. Lead Core for FMJ

### Product Description:

They are used in manufacturing FMJ bullets. All the cores have identical shape and weight. They are easily collated by the feeders of the bullet presses due to their symmetrical shape.

## 9mm. **Lead Core**

### **Product Description:**

Lead Cores are used in manufacturing plated bullets. All the cores have identical shape and weight. They are easily collated by the feeders of the bullet presses due to their symmetrical shape.

## 9x19 mm. Steel Case

### Product Description:

9×19 mm Unprimed Steel Cases in accordance with the SAAMI, CIP and NATO standards. All of the produced components are controlled by high technology automatic gauging and visual inspection machines in terms of their visual and dimensional conformance.

### Technical Specifications:

<b>Case Type</b>	9×19 mm
<b>Material</b>	Steel
<b>Saami Standards</b>	SAAMI Z299.3-2015
<b>CIP Standards</b>	TAB IV DATE 84-06-14 REV.08-09-23
<b>NATO Standards</b>	NATO STANAG 4090 NATO STANDART AEP-97

## 9x19 mm. Brass Case

### Product Description:

9×19 mm Unprimed Brass Cases in accordance with the SAAMI, CIP and NATO standards. All of the produced components are controlled by high technology automatic gauging and visual inspection machines in terms of their visual and dimensional conformance.

### Technical Specifications:

<b>Case Type</b>	9×19 mm
<b>Material</b>	Brass
<b>Saami Standards</b>	SAAMI Z299.3-2015
<b>CIP Standards</b>	TAB IV DATE 84-06-14 REV.08-09-23
<b>NATO Standards</b>	NATO STANAG 4090 NATO STANDART AEP-97

## 12 Cal. **Global Slug**

### **Product Description:**

12 Cal. Husting Slug are produced entirely by **Alfa Defense** on our own, with the same quality standard homogeneous and smooth shape in every single piece. Specially designed for the big hunts, due to the air channels on its sides, achieves the target quickly and effectively, has an aerodynamic design. Our 12 Cal slugs especially designed for the ribbed riffle accurately hits the target and leads to instant lethal effect.

## Lead Shots
